NUTRITION INFO

** Bases, Ingredients and Grilled Item Nutrition is based on signature bowl portions.

FOOD & MEALS

Our Approach

When it comes to foods and the meals they make up we believe 3 things,

1. They should be delicious
2. They should be mostly natural
3. They should leave you satisfied

Why these 3 things? We think they check all the boxes for what us humans would want out of a meal. It would be enjoyable to eat (delicious), would support us with long-lasting energy and make us feel great (natural), and keep us full after to avoid snacking (satisfied).

Nature really has our backs! Very cool to see how packed with nutrients natural food is. These are things that help us sleep, manage stress, focus longer, etc.

LOW CARB

Cutting carbs? Try reducing the amount of grains in your bowl, and adding in more lettuce instead. Also try swapping out pita chips, or sweet potatoes for cucumbers, broccoli, or cabbage.

LOW CALORIE

Going lower calorie? Couple ways to do that.

- reduce grains a bit and add more lettuce
- go a little lighter on the dressing and add in the same lime and lemon squeezes instead
- take out a higher calorie ingredient and replace with a lower calorie one.

LOW SODIUM

Reducing your sodium intake? Try swapping out cheese or pita chips for a plant-based ingredient, like avocado, cucumbers, or corn.
